LIST OF CONTINUOUS PROCESS INDUSTRIES

(Scheduled II to Government Order No.GHU/92/7/ELC/1492/994(ii)/KI dated 16.10.1992 as amended from time to time)

1. Manufacture of complex fertilizers based on petrochemicals feedback.
2. Primary petrochemicals.
3. Pulp and paper.
4. Starch manufacture.
5. Cement.
6. Industrial Gases.
7. Pharmaceuticals (Antibiotics only).
10. Steel/Mild steel (limited to maintenance of head in arc furnaces).
11. Cold storages.
12. Alcohol (Industrial).
15. Crimping and texturising of synthetic yarns (except single heater pin type crimping machines).
17. Manufacture of Nylon.
18. Manufacture of glass by continuous automatic or semi-automated process.
19. Manufacture of yellow phosphorous by nuffled arc furnace.
20. Phthalic Anhydride.
23. Manufacture of Nitre Phenols.
25. Manufacture of Chlorobenzene.
26. Manufacture of Sulphuric Acid.
27. Manufacture of Cinema Arc Carbons (including gouging carbons and process carbons).
29. Manufacture of Aluminium Oxide Abrasive grains.
30. Manufacture of Formic Acid.
31. Manufacture of Glue & Gelatin.
32. Heavy Water Project.
33. Petrol Pumps.
34. Sodium and Potassium Chlorate.
35. Calcium Gluconate.
36. Electroplating Industries.
37. Manufacture of Screens for Textile Printing.
38. Calcination.
39. Sodium and Potassium Dichromate.
40. Manufacture of Synthetic Fiber/Multifilament Yarn.
41. Manufacture of Polynasic Fibre.
42. Manufacture of Misch Metals.
43. Manufacture of Sodium Metal.
44. Manufacture of Magnesium Metal.
45. Recovery of Zinc Metal.
46. Manufacture of Hard Gelatine Capsules.
47. Acetic Acid.
48. Acctaldehyde.
49. Formaldehyde.
50. Manufacture of Malt Product.
52. Manufacture of Citric Acid.
53. Manufacture of Bread and Biscuits.
54. Manufacture of Alumina.
55. Manufacture of Aluminium Metal.
56. All industries
57. Treatment and dispose system.
58. Manufacture of liquid.
59. Manufacture of acid.
60. Calcium Black.
61. Penta crithritol.
62. Acetic enhydride.
63. Aluminium Chloride.
64. Spondex Yarn.
65. Hydrogenation of Vegetable Oils.
66. Manufacture of Ammonium Persulphate/Potassium Persulphate/Sodium Persulphate by electrolysis process.
67. Manufacture of Alpha Olefin Sulphonate.
68. Manufacture of Fatty Acids.
69. Manufacture of Cyanides from Natural Gas and Ammonia.
70. Manufacture of Automobile Tyres and Rubber Belts.
71. Recovery of Nickel Metal.
72. Manufacture of Thionyl Chloride.
73. Manufacture of Chloro Acctyi Chloride Trichoro Acctyl Chloride/Sodium Salt of Trichlo Pyridinol.
74. Manufacture of Chloro Propionyl Chloride.
75. Manufacture of Bioxially riented Poly Prophylene Films.
76. Manufacture of Lactose.
77. Solvent Extraction Plants (having extractor with rotating screen belts).
78. Di-chyl Thio Phosphouryl Chloride.
79. Phosphoroul trichloride.
80. Trimethyl Phosphite.
81. Tissue Culture Industry.
82. Microcrystalline Cellulose granular.
83. Synthetic Cresol.
84. Isoproturon.
85. Anilophos.
86. PSBC Vaccine.
87. Pentoxifyline/Roxatidine/Tonophosphan.
88. Ceramic Fibre.
89. Manufacture of Ethylene Amines and Poly Amines.
90. Manufacture of lead acid battery plate.
91. Manufacture of Colour Picture Tube.
92. Copper smelter units.
93. Manufacture of Phosgene Gas.
94. Manufacture of Isopoturam Technical.
95. Manufacture of Carbendaxim Technical.
96. Integrated Steel Plant.
98. Manufacture of Pre-sensitive offset Printing Plates (Coil Line).
99. Manufacture of Stainless Steel and Alloy steel along with secondary refining facility.
100. Manufacture of Para Di-Ethyl Benzene.
102. Manufacture of Polystyrene.
103. Manufacture of toilet soap by continuous saponification plant.
104. Manufacture of Endosulfan, botenedial, Chlorpyriphos and White Phosphorous.
105. Manufacture of Sebasic acid.
