ANNEXURE-A

Labour rate for works of Loading/ Unloading / Shifting / Stacking / Cleaning /Tree cutting/Grass Cutting of various work at Kadana HEP main Store

(1) All necessary tools and tackles such as chain pulley blocks, welding generator sets, hook-chooks, wire slings, spanner, gas cutting sets, welding cables, grinding machines etc. shall be arranged by the party at his own cost.

(2) At any time, if it is found that work force of the party is inadequate and progress of the work is not to the satisfaction of GSECL, other agencies / departmental personnel will be put to carry out work. Amount so incurred will be recovered from the party's bill. In this case the decision of the Engineer in charge shall be final and binding on the contractor.

(3) The time is the essence of the contract and the party shall have to ensure that work is completed within stipulated period, mentioned in the contract, keeping personnel round the clock otherwise penalty will be charged at the rate 1/2 % per week subject to maximum of 10% of the contract value as per the Corporation's rules.

(4) Party shall indemnity GSECL against any injury and/or damages that may be caused to his man or material. Moreover, the party shall be fully responsible for any damages caused to the corporation's properties done by his men/materials, while executing the work. The Corporation will be entitled to recover the damages from the party's bill.

(5) Party should take all necessary precautions during execution of the work and all labours of the party should utilize all types of safety appliances during work in plant area to prevent the accident as per factory acts/rules.

(6) The electrical connection and electricity to the party's welding generator sets and other equipments such as grinding sets etc. shall be given by the Corporation on non chargeable basis required at one point only near to working place, as directed by EIC.

(7) This is a rate contract valid for a period of 12 months. The Corporation reserves the right to extend this annual contract for further period of six months if deemed suitable, considering the balance quantities yet to complete and it will be binding to the party. The rates and other terms and conditions will remain same as per original order for the extended period.

(8) The tender shall be submitted along with EMD without which no tender will be considered.

(9) The conditional tender will not be accepted. Withdrawal of conditions unilaterally after opening of tenders will not be permitted.

(10) The labour laws in existence and which may modify from time to time shall be binding to the party. The party will have to execute an indemnify bond on non judicial stamp paper of appropriate value. The cost of the same shall be borne by the party.

(11) The Corporation reserves the right to split each item in to more than one agency and place the order accordingly. All parties should therefore, carefully evaluate and fill up the rate item wise, keeping themselves ready to execute order for any one or more, allotted to them by the Corporation.

(12) The Corporation reserves the right to terminate the contract at any time during its tendency by giving seven days notice to the party without entertaining of claim/compensation.

(13) The contractor shall have to arrange to remove the day to day scrap materials from site and deposit to GSECL main store / site stores as per the instructions of EIC. The site must have to be kept cleared before starting /commissioning of equipments / unit otherwise 5% of the contract / order value or the amount of expenditures actually incurred will be recovered from the party's bill without assigning any reason in the event of non removal of scraps.

(14) Rates are quoted to be firmed. Hence no price and labour escalation will be applicable.
(15) All consumables, like cotton waste, kerosene, Diesel/ rustolene, welding electrodes, oxy-
acetylene/ gas shall be arranged by the party at his own cost.

(16) The spares, pertaining to equipment components, fasteners, packing ropes, MS plates, gasketing
etc. will be issued free of cost from GSECL store as per requirement of work.

(17) Overall time period for this contract would be 12 months, counted from the date of
commencement of the work and can be extended for further period of six months, if required to
execute the balance quantities at the same rates and terms.

(18) The party has to arrange for 24 V transformer/battery torches, to be utilized as safety equipment
while carrying out work inside of equipments at higher elevation. The party has to provide
required capacity ELCB on welding machine.

(19) The RA bills may be raised by the party on completion of works per unit quantity wise.

NOTE: Over writing while filling rates in schedule `B' of tender copy is not permitted and if any over
writing is there, the contractor has to be signed.

Kadana Hydro Power Station  
90080000:Kadana Hydro Power Station

Labour rate for works of Loading/Unloading/Shifting/Stacking/Cleaning/Tree cutting/Grass Cutting of various work at Kadana HEP main Store

GENERAL CONDITIONS OF CONTRACT

SECTION:

1. The contractor shall at their own expense make all necessary provision for housing water supply and sanitary arrangement for their employee as well as for works and shall pay direct to the authorities concerned all rates and taxes.

2. The contractor shall make their own arrangements for the necessary approach road, for transport of their materials and be responsible for the Compensation on account of damage to crop on Corporations' property.

3. All the royalty charges octroi other duties will be paid by the contractor and no extra could be claimed on this account.

4. The organization will supply articles at the place and rates mentioned in schedule ‘A’ of Tender form.

In case of the materials issued either through or with the recommendation of this organization it will be absolutely necessary for the contractor to maintain a correct and honest record of the daily consumption of the said materials/with inside particular reference to the work during the day.

The Engineer-in-charge of this department or his authorized agent shall have the right to inspect and check the stores containing these materials and the account for these materials shall be presented for inspection whenever asked for by them. Every facility shall be afforded by the contractors for all these inspections Engineer-in-charge will supply the materials in any quantity as deemed fit.

5. Godown of sheds hired or constructed for storage of controlled materials and more/ particularly of cement shall be such as would prevent the materials from getting damages in any way.

6. It will be absolutely incumbent o the contractors to have on the site of work only such of the materials as have been dully passed by the Engineer-in-charge Materials that have been rejected must on no account be allowed to remain on the side and in spite of written order to do so any such rejected material is on the site beyond a period of 48 hours, notice the Engineer-in-charge shall have the right to remove it at the risk and cost of the contractor and even destroy it.

7. It must be distinctly understood that the conditions of the contract and of claims in respect of extra work will not be allowed, unless the works to which they relate is clearly without the spirit and meaning of the specifications or unless such work are ordered in writing by the Engineer-in-charge and claimed for in specified manner.

8. On completion of the work, the site shall be cleared by the contractors within the stipulated period, and ground brought to original state and they shall not be entitled for any extra claim on this account.

9. General specification of the latest edition of the P.W.D. Hand Book volume I & II shall also apply.

10. When cement is obtained through or with the recommendation or issued by the Corporation it should be understood that the contractors will have to be very careful regarding the handling of the cement bag so as to preserve their serviceability and quality.

11. DAMAGE CAUSES TO WORKS: The work whether fully constructed or not, and all materials, machinery plant tools, temporary building and other things connected there shall be at the risk and in the sole charge of the contractor until the works have been delivered, completed to the Engineer-in-charge and certificate from him to that effect obtained until such delivery the contractor shall at their own cost take all the precautions reasonably necessary to keep all the aforesaid works materials machinery, plant, tools, temporary building and other things connected
with the work, free from any loss or damage and in the event to the same or any part there of being lost or damage shall from with within possible speed, reinstate and make good such loss or damage at contractor’s own cost.

12. Supply of controlled articles will be invariably recommended after the actual requirements have been carefully scrutinized. In the event of any such materials remaining in surplus in charge of the contract, on account of some modifications either in the design or changes in construction or any other reason will be returned to the department.

13. There will be generally no objection on the component parts of the works being given over to responsible sub contractors but it must be borne in mind that this department would under no circumstances recognize these sub contractors and responsibility of executing the work in accordance with the condition of the contract will entirely rest on the main contractors. The main contractors will therefore always have the very responsible member preferably a technical hand, present on the works with power to sign all work order issued on the site of work and to take requisite actions in the interest of very efficient execution of works.

14. With a view to ensure rapid progress on the works purchaser may store at work sites certain quantities of the materials such as cement etc. and it will be incumbent on the tender to purchase these materials, at the rates mentioned in schedule ‘A’ of tender form for supply of necessary articles, all necessary help will be tendered but in must be clearly understood that the purchases does not accepted and responsibility for the delay that may be cause in their supply on account of circumstances beyond the purchaser’s control.

15. The Engineer-in-charge will fix the hours of work and no work shall be executed beyond that period during night time or in absence of the Engineer-in-charge or his authorized agent. The box measures shall be filled only in the presence of the Engineer-in-charge or his authorized agent.

16. Contractor will be asked to present the sample of materials and the approved sampled will be preserved at the site of work and no change in the approved sample will be allowed without the written permission of the Engineer-in-charge.

17. If any work is not executed according to the specifications and the directions of the Engineer-in-charge the same will be rejected or reduced rate will be allowed as deemed fit by the Engineer-in-charge.

18. Contract will have to communicate the name of his authorized agent who shall be presentation the works and shall be authorized to sign the materials requisitions receive instruction given verbally, or on the order book on behalf of the contractor.

19. The materials issued to the contractor as per schedule ‘A’ of the tender shall not be removed from the work and all surplus material at the end of the works which is considered serviceable shall be returned to the organization even the unserviceable material shall be removed only with the prior permission to the E.E. in writing.

20. The contractor will have to sign the conditions of the contract and execute the agreement, send the list of previous works executed solvency certificates and pay up the security deposits, failing to that the tender will be rejected and earnest money deposit will be forfeited. The value of the stamp paper and stamp duty charges shall be borne by the contactor.

21. The contractor must arrange for all transport of materials weighting of material issued at department stores and all such cost include in the rates of schedule ‘B’ with the loss or above percentage quoted by the contractor for finished work.

22. The competent authorities can delete to any items in the schedule ‘B’ of the tender order if they fill that the items is not essential to be executed.

23. A schedule of quantities is included in the tender document it shall definitely understood that the Corporation does not accept any responsibility for the correctness or complication of this schedules and this schedule is liable to alterations by commissions, deduction or additions at the description of the Chief Engineer of as set forth in conditions of contract specific percentage less or above shall be quoted by the contractor below the total amount of schedule ‘B’. The tender documents shall be written legibly and free from grouser, over written on conversion of figures correction where unavoidable shall be made by crossing out initialing dating and rewriting both in figures and in words in case of my discrepancy in figures the price quoted in words shall prevail.
24. This notice to tenders shall form a part of the contract.

25. The entire work is to be completed within the stipulated time limit from the date of work order. The contractor will not be eligible for any extra for the idle period of work or waiting period that may be required to suit other considerations and no claim for compensation on account of such will be considered. However, in case of delay due to circumstances beyond the control contractor either in date of commencement or due to waiting during construction, extension time may be considered for completion of work.

26. In case contractor is unable to account for full quantity of materials issued to him from the department stores, recovery will be effected from him at cost rates or market rates prevailing at the time of issue whichever is higher, plus 15% to cover Corporation's departmental supervision charges for all material unaccounted for.

27. Scrap from reinforcement (bars below 1.25 M lengths) not be accepted back and the contractor will be authorized to remove it from the site after completion of work and rendering of accounts with written permission of Engineer in charge not below the rank of Executive Engineer. The corporation will not be responsible for any delay in supply of controlled materials such as M.S. Reinforcement Bars cement etc. however it will hand over to see that there in no delay of materials. Due consideration will be given in granting extension of time for completion of the work if found necessary on account of delay supply of materials. No claim for compensation or for damages for extension in time shall be entertained in this account.

28. The contractor shall keep one full-time qualified Civil engineer at site who shall be fully authorized to receive and comply with such instructions as given by the Executive Engineer. The names of such Engineer with his qualification and experience shall be intimated by the contractor. The E.E. shall have the right to demand the removal of any technical person. Skilled or unskilled workmen who in his opinion are considered to cause bad workmanship in the execution of work or to cause indiscipline.

29. Bill shall be submitted by the contractor monthly on or before the date fixed by the E.E., for all works executed in the previous months.
